Portfolio Website

Professional Summary

- Final year B.Tech CSE student at Vellore Institute Of Technology (VIT), Amaravati with 10 months of software engineering internship experience, proficient in C++, Object-Oriented Programming (OOP), and Data Structures & Algorithms (DSA).
- Passionate about learning and eager to apply my technical skills in an entry-level SDE role to develop innovative solutions.

Education

- **Vellore Institute Of Technology (VIT), Amaravati** 2021-2025
  B.Tech in Computer Science and Engineering with Specialization in Artificial Intelligence and Machine Learning **CGPA: 8.24**
- **Delhi Public School, Maruti Kunj, Gurugram** 2020-2021
  Senior Secondary Examination (CBSE) - Class XII **Percentage: 77.0%**
- **Delhi Public School, Maruti Kunj, Gurugram** 2018-2019
  Higher Secondary Examination (CBSE) - Class X **Percentage: 81.0%**

Technical Skills

- **Programming languages:** C++, Java, Python, C#, HTML, CSS, PHP, JavaScript, SQL
- **Software Packages:** MS Visual Studio, MySQL, Git, Android Studio
- **Core Courses:** Object-Oriented Programming System (OOPS), Data Structures and Algorithms (DSA), Database Management System (DBMS), Operating System (OS), Computer Networks (CN), Software Engineering (SE)
- **Soft Skills:** Communication, Teamwork, Problem Solving, Adaptability, Collaboration

Experience

- **Zoblik International** May 2023 - March 2024
  Software Engineer Intern
  - Contributed to a **Java-based android application** assisting visually impaired users by integrating AI/ML features.
  - Identified and debugged software issues, proposed effective solutions, and implemented fixes.
  - Designed and developed user interface components tailored to meet the target audience's requirements.
  - Integrated **Google ML Kit OCR supporting** 36 languages, reducing latency from 1500ms to 800ms and increasing accuracy from 88% to 97%.
  - Implemented **YOLOv8-based object detection**, expanding detection capability from 90 to 600 object classes with 96% accuracy using the Open Images V7 dataset.
  - Collaborated with cross-functional teams for feature testing and debugging to ensure smooth performance and stability.

Projects

- **eLearning Web Application | GitHub Link**
  A service-based website offering one-to-one mentorship, education, and assistance to address real-world problems.
  - Developed a platform connecting users with the right mentors, offering personalized mentorship and educational resources.
  - Developed front-end using **HTML** and **CSS**, back-end with **PHP** and **JavaScript**, and managed data efficiently with a robust **MySQL** database.
  - Integrated a **secured payment gateway API** for seamless online transactions and enhanced user experience.
- **GraphPath (Graph creation + Finding shortest path) | GitHub Link**
  A web app for creating and storing graphs and finding the shortest path with an intuitive interface and efficient algorithms.
  - Designed an interactive platform using **HTML** and **CSS** for the front-end and **JavaScript**, **PHP** and **MySQL** for the back-end, allowing users to build, visualize, and analyze graphs.
  - Utilized **Dijkstra's algorithm** for optimal shortest path computation and **Manhattan distance** for precise node distance calculation.
- **Weather Forecasting Android App | GitHub Link**
  An android application that displays weather reports for any city or country using the Open Weather Map API.
  - Designed and developed the application using **Android Studio** and **Java**.
  - Utilized real-time **API** data for accurate weather updates, ensuring accuracy and efficiency through rigorous testing.

Certifications and Achievements

- **Java Development** on **Oracle Cloud** issued by **Oracle**.
- **Problem Solving (Basic)** and **Problem Solving (Intermediate)** issued by **HackerRank**.
- Awarded with **Star Performer Certificate** & **Letter of Recommendation (LOR)** for exceptional internship performance.
- Solved **850+ problems** on **LeetCode** | LeetCode - amrit_248
