EMPLOYMENT OBJECTIVE

To obtain a position that will allow me to utilize my System and networking and organizational skills to better the company and my personal skill set.

PROFILE

Dedicated and experienced Field Service Engineer with extensive expertise in diagnosing, repairing, and maintaining laptops and desktop systems. Skilled in hardware troubleshooting, software installations, and customer support, aiming to deliver prompt and reliable service to enhance client satisfaction

EXPERIENCE:

- **Company Name : TATA ELXSI LTD , BANGALORE**
- **Period : JAN 2023 to Right Now**
- **Designation : Dell hardware Support Engineer**
- **Role : Dell Technician**

Job Responsibilities

- Diagnosed, repaired, and serviced Dell laptops and desktop computers at customer sites, resolving hardware and software issues.
- Performed troubleshooting of components including hard drives, motherboards, RAM, and power supplies, ensuring timely and accurate repairs.
- Installed and configured operating systems, drivers, and other essential software as required.
- Managed replacement and upgrade of hardware components based on warranty status and client needs.
- Documented service activities, including repair details and parts used, ensuring accurate tracking in company systems.
- Provided on-site technical support and training to customers to help them resolve issues independently in the future.
- Ensured compliance with company policies, safety standards, and service level agreements (SLAs).
- Communicated effectively with the central support team and clients to schedule repairs and updates.

TECHNICAL SKILLS:

- Hardware Troubleshooting & Repair: Expertise in diagnosing and repairing Dell laptops and desktops, including motherboard, hard drive, RAM, power supply, display, and peripheral components.
- Operating Systems: Proficient in installing, configuring, and troubleshooting Windows (7, 8, 10, 11) and Linux operating systems.
- BIOS & Firmware Updates: Experienced in performing BIOS updates and firmware installations to optimize device performance.
- Software Troubleshooting: Skilled in diagnosing and resolving software issues, including application errors, system crashes, and driver conflicts.
- Data Backup & Recovery: Competent in performing data backup, restoration, and recovery procedures to ensure data integrity during repairs.
- Peripheral Device Setup & Configuration: Hands-on experience with printers, scanners, docking stations, and other peripheral devices.
- Networking: Basic knowledge of network setup, troubleshooting LAN/WAN connectivity issues, and configuring wireless connections.
- Diagnostic Tools: Proficient with Dell SupportAssist, diagnostic utilities (ePSA, POST), and third-party diagnostic tools for hardware failure detection.
- Client Management Tools: Familiar with service management systems, ticketing tools (e.g., ServiceNow), and remote support software.
