Profile

With over 6.6 years of experience as a Technology Analyst, I have developed a strong expertise in supporting Google products and ensuring their optimal utilization within businesses. My professional journey has honed my skills in Google Workspace (formerly G Suite) administration, where I have successfully managed email security, user management, and troubleshooting tasks. I have effectively implemented Google Workspace solutions across organizations, focusing on robust email security through SPF, DKIM, and DMARC protocols. My proficiency extends to DNS configuration, ensuring seamless integration of email services.
