Profile

Detail-oriented software developer currently pursuing an MCA degree at MIT Manipal, with a strong foundation in programming and problem-solving. Proficient in multiple programming languages and well-versed in development tools. Experienced in full-stack development and committed to quality software testing. Demonstrates the ability to design scalable and maintainable software solutions. Passionate about continuous learning in emerging technologies and eager to contribute to a dynamic team environment.

Education

MANIPAL INSTITUTE OF TECHNOLOGY Aug 2023 – July 2025

MASTER OF COMPUTER APPLICATIONS

Relevant Coursework: Object Oriented Programming using Java and C++, Web Development, Discrete Mathematics, Operating Systems, Machine Learning, Advanced Data Structures and Algorithms, Data Analytics, Oracle Database Management, and Information Systems.

ALIGARH COLLEGE of ENGINEERING and TECHNOLOGY Jun 2020 - Apr 2023

BACHELOR OF COMPUTER APPLICATIONS

Relevant Coursework: Object Oriented Programming Using C, Office Automations, Data Structures and Algorithms,Computer and Mobile Networks, Data Mining, Software Engineering, Python Programming, and Dynamic Web Design.

Technical Skills

Languages: C/C++, Java, Python, HTML, CSS, JavaScript and PHP.
Databases: MySQL, MongoDB.
Frameworks: ReactJS.

Projects

TOUR AND TRAVELS Mar-2023

Highlights: A tour and travel project involves creating a comprehensive plan or service to cater to travelers seeking memorable experiences. This can encompass a range of activities, from designing bespoke travel itineraries and developing business strategies for travel agencies to creating user-friendly travel websites or apps.

Technologies Used: HTML, CSS, JavaScript, PHP.

Role: Full Stack Developer

- Designed and set up the registration and login sections for the users with validation and encryption using MD5 hashing.
- Implemented backend CRUD operations, ensuring successful booking ID generation and management.
- Developed a reports section for the admin to generate and visualize weekly, monthly, and annual sales reports.
- Coordinated with a team of 3 members.

Outcome: Digitized booking process, improved efficiency, and increased customer and client satisfaction

MOBILE SELLING SHOP AUTOMATION SALES Feb–Jun 2025

Highlights: A role-based web application designed to digitize sales, inventory, order management, invoicing, and customer relationship processes for a mobile phone retail business. Implemented distinct dashboards for Admin, Sales Representative, and Customer roles.

Technologies Used: HTML, CSS, Bootstrap, PHP, MySQL, XAMPP

Role: Full Stack Developer

● Developed secure login and session management with role-based redirection for Admin, Sales Rep, and Customer dashboards.
● Built dynamic inventory and order management modules with add/edit/delete, low-stock alerts, and Excel export capability.
● Implemented real-time sales tracking and reporting with monthly/yearly analytics and invoice generation.
● Designed customer modules for browsing products, placing orders, and viewing/downloadable invoices.
● Coordinated with industry mentor and faculty for design validation and iterative development.

Outcome: Fully digitized mobile sales workflow, enhanced operational accuracy, reduced manual effort, and improved user satisfaction across roles.

Positions of Responsibility

- Event Head for the National Level College Fest, with over 23 colleges attending, breaking the highest number of attendees for an IT Fest on campus.
- President of the Student Council.
- Core Member of Marketing and campaigning Committee for IT National Fest, “Composite”
- Elected as class representative on multiple occasions.

Achievements and Certifications

- Advanced Styling and Responsive Design Certification from University of Michigan.
- Data Science with Python certification from Simplilearn.
- Mathematical Thinking in Computer Science Certification from National Research University.
- Awarded the best NCC Cadet certification.
- Awarded the best Computer Science student in Senior High school.
- Collected 10+ Webinar Participation Certificates.

Soft Skills

- **Communication Skill**s: Proficient in 2 languages, including English, Hindi.
- Project Management.
- Team Leading and tutoring.
- Analytical thinking and problem solving.
- Creating and delivering impactful presentations.

Interests

- Artificial intelligence and prompt engineering.
- System level optimizations and testing.
- UI - UX Design.
