Profile

Passionate web developer with a flair for innovation and a dedication to crafting seamless user experiences. From frontend design to backend development, I thrive in the dynamic world of web development. With a keen eye for detail and a commitment to clean, efficient code, I bring creativity and technical expertise to every project I undertake. Let's build something amazing together.

Experience

IT Officer [Cosys Application](DCSC, IGI Airport) **Delhi 12**/2024- Present

- Diagnose and resolve backend issues to ensure smooth workflow across departments.
- Identify and fix recurring bugs to maintain application stability and performance.
- Monitor and support logistics and cargo software with timely updates.
- Perform application testing to detect bugs, validate fixes, and ensure functionality.

Website Developer Intern(Zetpeak) **Bengaluru, India** 07/2023-10/2023

1.Transportation and Logistics Web App:
- **Master Forms & Security**: Created master forms for dynamic data handling and implemented role-based access controls using MongoDB.
- **Load Receipt & Invoice Systems**: Designed automated systems for load receipts and invoices, including QR code integration for easy access.

2.Website Redesign and Administration System Implementation:
- **Frontend Development**: Led the redesign of a dynamic, responsive UI using React.js, enhancing user engagement and ensuring cross-device compatibility.
- **Backend Integration**: Developed a robust Node.js backend and integrated a content management system for seamless product, image, and pricing management.
