Professional Summary

MCA graduate with 0–1 year of industry experience and a strong foundation in front-end development, especially React JS. Skilled in building responsive, user-centric web applications using modern JavaScript frameworks and tools. Passionate about UI/UX design, code quality, and performance optimization. Seeking to contribute to a dynamic development team where I can further grow my skills in React, Redux, and full-stack JavaScript technologies.

Education

Dr. Virendra Swarup Institute of Computer Studies

- **Master in Computer Applications (MCA)** – 8.01 CGPA *Nov 2022 – Aug 2024*

Allenhouse Business School

- **Bachelor of Computer Applications (BCA)** – *July 2018 – Sep 2021*

Professional Experience

- Developed business relationships with local manufacturers and ensured timely supply of quality material

---

Technical Skills

- **Languages & Frameworks:** React JS, Redux (Basics), JavaScript (ES6+), HTML5, CSS3, Java, MySQL
- **Networking & Support:** Network device setup (routers, switches, firewalls), subnetting, crimping, routing, switching, cable management
- **Remote Connectivity:** Troubleshooting with tools like AnyDesk, RDP, TeamViewer
- **Tools & Platforms:** Git, GitHub, VS Code, Chrome DevTools
- **UI Libraries & Frameworks:** Tailwind CSS, Bootstrap
- **Other Skills:** Responsive Web Design,]

Key Projects

1 - Blackjack Game

- Developed a responsive Blackjack game. Featuring dynamic card Rendering, real-time game logic, and interactive UI with modals and animations.
- Technologies Used: HTML, CSS, JavaScript, Font Awesome (for icons), and Mixkit (for sound effects).
- Link: Live View

2 – Social App

- Developed a full-stack social media app with user authentication, friend requests, real-time notifications, and profile management.
- Technologies Used: React, Node.js, Express, MongoDB, and Socket.IO.
- Link: Live View

3 – Gate Entry Management System

- Developed a Gate Entry Management System using HTML, CSS, and JavaScript to track visitor entries, manage data, and generate daily/monthly reports efficiently.
- Technologies Used: Technologies Used: HTML, CSS, JavaScript, Font Awesome (for icons
- Link: Live View

4 . **React Portfolio Website**
Personal Project | Tech Stack: React JS, JavaScript, CSS, and GitHub Pages

- Designed and developed a personal portfolio using React JS to showcase projects and resume.
- Implemented routing using `react-router-dom`, state management, and form validation.
- Hosted on GitHub Pages with responsive layout across devices.

Certifications

- **Java (Basic)** – *Hacker Rank*
- **HTML, CSS** – *LinkedIn Training*
- **JavaScript Boot camp** – *Lets Upgrade*
- **Career Skills** – *TCS ION*

Hobbies

- Exploring new technologies
- Problem-solving and troubleshooting.
