Summary

Motivated and detail-oriented IT graduate with a strong foundation in cloud computing and Networking. Completed comprehensive training in AWS Cloud Computing and gaining hands-on experience with services such as EC2, S3, and Lambda. Also Trained in Cisco CCNA and CCNP, demonstrating proficiency in network configuration, routing, and switching. Eager to apply technical skills and knowledge to contribute to innovative IT solutions in a dynamic organization.

Skills

- **AWS cloud**: ec2, S3, IAM, VPC, ECS, Lamda, Route53, Load Balancer, cloud Networking, security groups and Access Management and Bash Scripting. Creating and managing AWS infrastructure, Troubleshooting cloud networking issues.
- **CCNA & CCNP**: configuration of cisco routers and switches with protocol such as BGP, EIGRP, HSRP, OSPF, RIP, VLAN, STP, RSTP, VTP, ACL, IPsec, VPN, OSI & TCP Models.
- **System Knowledge**: Server administration and Linux operations.

Academic Projects

- **Small Office Network Design**: Designed and implemented a LAN network with routers, switches, and Pcs. Configured VLANs, trunk ports, and inter-vlan routing. Applied IP addressing and subnetting to organize devices by department. Tested connectivity and troubleshooting using ping and traceroute.
  Goal: setup a basic LAN with vlans, routers and switches.
  Tools: Cisco Packet Tracer or GNS3

- **Site-to-Site VPN Between Two Branches**: configured an IPsec VPN tunnel between two branch offices using ISAKMP and transform sets. Used access list to define interesting traffic for encryption. Verified secure connectivity with 'show crypto' command and live ping tests. Implement OSPF for dynamic routing between sites.
  Goal: securely connect two networks using IPsec VPN.
  Tools: GNS3 and Cisco iOS

Education

- **Bachelor of Computer Application** 72% **2020-2024**
  (Magadh university, Bodhgaya)

Training & Certification

- **AWS re/start Graduate** (Tech Mahindra Smart Academy, JMI)
- **CCNA & CCNP** (Teckcat Network Solution, Noida)
