PROJECTS

Appointment Scheduling System
React, ASP.NET Core Web API, MySQL, Dapper
Designed and developed a responsive appointment booking system for clinics and salons. Created a user-friendly frontend using React, and built secure backend APIs using ASP.NET Core. Integrated MySQL database using Dapper for efficient data access. Included admin interface for approving or rejecting appointment requests.

Interview Scheduling Portal
React, .NET Core (C#), MySQL, Dapper ORM
Developed a web application for interview scheduling between candidates and HR. Implemented secure registration, login, and slot booking for candidates. Admin dashboard allowed managing and approving interview requests. Used Dapper for optimized and clean API integration.

EXTRA-CURRICULAR ACTIVITIES

- Participated in college-level coding competitions and hackathons.
- Attended webinars and workshops on .NET development and clean architecture.
