PRIYANSHU CHAUBEY

7492873727 priyanshuchaubey267@gmail.com linkedin.com/in/ priyanshu169/

Technical Skills

Skills and Operating Systems: C++, python, Bash, PowerShell, Windows, Hub Spot, Google Sheets, Looker Studio
Tools and Network Security: Wireshark, Nmap, Burp Suite, Data Analysis & Reporting, VPNs, Customer Success Operations
Soft Skills: Detail-Oriented, Analytical, Problem-Solver, Team Player, Stakeholder Management, Detail-Oriented,

Experience/Projects,

Suvidha foundation **july – Present**
AI Internship Nagpur, Maharastra

- Assisted in developing and testing machine learning models for real-world datasets.
- Collected, cleaned, and preprocessed large datasets to improve model accuracy.
- Implemented supervised and unsupervised learning algorithms using Python.
- Built classification and regression models using scikit-learn and TensorFlow.
- Conducted exploratory data analysis (EDA) to uncover trends and insights.
- Visualized results using Matplotlib, Seaborn, and Tableau dashboards.
- Tuned hyperparameters to optimize model performance and reduce bias.
- Evaluated models with cross-validation and relevant performance metrics.
- Automated repetitive tasks through custom Python scripts and pipelines.
- Collaborated with cross-functional teams to understand project goals and data needs.
- Documented workflows, model assumptions, and outcomes for future reference.
- Participated in weekly stand-ups and sprint reviews to track project progress.
- Presented findings and recommendations to mentors and senior team members.
- Researched the latest AI trends to apply innovative techniques in projects.

Self-Directed SIEM Implementation & Log Analysis Project **Sep 2023 – Oct 2023**
Cybersecurity Trainee *Bengaluru, India*

- Set up Splunk to collect and analyze logs in a simulated SOC environment, improving visibility into security incidents.
- Developed customized alerts and interactive dashboards to proactively detect suspicious activities and abnormal behavior patterns, significantly strengthening threat detection and response capabilities.
- Streamlined log collection workflows and fine-tuned Splunk queries, which enhanced the efficiency and speed of incident investigations.
- Documented log analysis steps and created security reports to communicate findings to technical and non-technical stakeholders.

Self-Directed Password Strength Checker Project **July 2023 – August 2023**
Cybersecurity Trainee *Kolkata, India*

- Designed and developed a Python-based script to assess password strength using regular expressions.
- Evaluated password inputs for minimum length, uppercase, lowercase, numeric, and special character requirements.
- Integrated common wordlists to check for dictionary-based weak passwords and reused credentials.
- Optimized script performance for faster analysis and easy user interaction.
- Generated reports highlighting password weaknesses and suggested improvements.

LEADERSHIP & CERTIFICATIONS

President of Student Council | Rajkiye madya vidyalay bhagwatput,patedha,vaishali,bihar **April 2015 - May 2023**

- Led student initiatives, managed events, and coordinated communication to strengthen collaboration.
- **TryHackMe Labs: Pre Security & Offensive Pentesting** – Completed guided penetration testing and privilege escalation labs to build hands-on offensive security skills
- **Cyber Incident Response**, Coursera – Completed incident response lifecycle, threat containment, and recovery

Education

Lovely Professional University **Aug 2021 – Sep 2025**
Bachelor of Technology in Computer Science and Engineering *Jalandhar, Punjab*
