PROFESSIONAL SUMMARY

A dedicated B. Tech graduate with a fervent passion for the IT industry, seeking opportunities to leverage my technical skills and knowledge in a dynamic work environment. Eager to contribute to innovative projects and enhance my expertise while making valuable contributions to organizational success.

TECHNICAL SKILLS

- **Programming Languages: - Java**
- **Other Skills: - SQL, HTML, CSS, Data Visualization (Power BI), Debugging, MS-Word, MS-Excel, Excel** , Google Sheets.

SOFT SKILLS

Flexibility, Teamwork, Problem Solving, Analytical Abilities, Critical Thinking.

PROJECT EXPERIENCE

❖ Power BI Developer Project – HR Analytics Dashboard

Project Description: Developed an interactive **HR Analytics Dashboard** using **Power BI** to analyze and visualize employee data, focusing on attrition trends and workforce distribution. The dashboard provided key HR insights like average salary, age distribution, attrition rates, and employee count by department, role, and education level. This project helped HR stakeholders make data-driven decisions for improving employee retention and organizational planning.

Key Responsibilities:

- Imported employee data from Excel and built relational data models in Power BI.
- Created calculated columns and DAX measures to derive KPIs like:
  - Attrition Rate, Average Salary, Average Age, Years at Company.
- Designed dynamic visuals: bar charts, stacked columns, pie charts, and KPI cards.
- Applied filters and slicers (e.g., Gender, Department, Education, Salary Slab) for interactive user experience.
- Identified patterns in attrition across job roles, age groups, and departments.
- Presented insights using clean visual storytelling, supporting HR analytics and decision-making.

Tools & Skills Used: Power BI | DAX | Excel | Data Visualization | Data Modelling | Dashboard Development.

❖ Technical Internship at OASIS INFOBYTE in Java Development

Projects: -

1. ATM_Interface

- Designed and developed a console-based ATM interface application using Java, Object-Oriented Programming (OOP).
- This project allows to perform the following operations such as Deposit, Withdraw, Transfer, Transactional History, Quit.
- Enhanced user experience through intuitive console interactions and clear messaging.
- Implemented user authentication mechanism that validates user ID and PIN for secure access.

2. E-commerce Order Management System

- Developed a console-based E-Commerce Management System to manage products, customers, and orders using Java, Object-Oriented Programming (OOP).
- This project allows to
  1. Add, update, and delete product listings.
  2. Register and manage customers.
  3. Place and track orders.
  4. View order history and status
- Enabled order status updates to track the order lifecycle from placement to completion, providing real-time order management.

EDUCATION

2019-2023

Techno Main, Salt Lake
B. Tech (2019 – 2023)
CGPA - 8.92

ACHIEVEMENTS

- **Worked in an NGO as a Teacher.** 2014
- **GATE 2023 Qualified.** 2023
- **Completed 3rd year in Singing training.** 2016
- **1st Position in State -Level Drawing Competition.** 2014
