## AN ANSPIRING DEVOPS ENGINEER

Enthusiastic and goal-driven aspiring DevOps Engineer with foundational knowledge in Linux, Python, AWS, Docker, Kubernetes, Terraform, Jenkins, and GitHub. Passionate about building efficient CI/CD pipelines, automating infrastructure, and streamlining workflo ws to deliver reliable and scalable solutions. Eager to apply theoretical knowledge to real-world challenges and contribute to team success.

## SKILLS

- Python - Numpy, Pandas, OOPs, File Handling, Exception.
- **AWS** - IAM, VPC, EC2, ALB, Auto Scaling, AWS WAF, Route 53, Lambda Function.
- Kubernetes - Minikube, Kind, Service, Rersource Quota, Node Port, Schedulings.
- Docker - Networking, Port-Mapping, Docker-Compose, Docker-Swarm, Docker Volume.
- Terraform - Setup VPC, Subnet and EC2 Instances, S3 bucket and Upload file, Input Variables.
- Jenkins, Ansible, Git and GitHub, Linux, Splunk(learning)

## PROJECTS

- **End to End CI/CD Implementation - Jenkins :** Implemented an end to end CI/CD pipeline for python based application using jenkins pipeline. As part of the pipeline, I have implemented various stages.
- **CI/CD Pipeline for Flask Application on AWS-EKS :** Complete CI/CD pipeline for deploying a Flask application to AWS EKS(Elastic Kubernetes Service) using Jenkins, Docker, AWS ECR, and Kubernetes.
- **Automated Deployment and Monitoring of Nginx using ArgoCD, Prometheus, and Grafana on Kubernets :** This project focuses on implementing deployment strategy using ArgoCD to automate the deployment of an Nginx application on a Kubernetes cluster.

## EXPERIENCE

### Automation Engineer @KST W.L.L(Bahrain-Middle East) 2023-2024

- Handling projects on the basis of Automation, Instrumentation and Control field.
- Assisting to the IT teams(cloud support).
- Maintained detailed documentation.

### Executive Planning @Recaero India Private Limited (Bangalore) 2021-2022

- Controlling and analyzing the Master Production Schedule using IFS software(ERP).
- Perform a daily plan and identify the changes or deviations that immediately propose the action plans.
- Distribute plans for each department to maintain the consignment and forecasting parts.

## EDUCATION

**Bachelor of Engineering**

Dayananda Sagar Academy of Technology and Management - VTU(2020)

**Cloud Computing & DevOps Course**

LearnBay Institute, Bangalore (Ongoing, 9 months)

## Certificates

AWS, Docker, DevOps, Python, Linux,

Server Application and Virtualization modules for Cloud Computing and DevOps (@LearnBay)
