Carrier Objective

Looking for a challenging role in a reputable organization to utilize my technical skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

Education

Bachelor of Engineering in Computer Science and Engineering, CGPA: 7.77 August 2020 - 2024

P.R POTE (PATIL) COLLEGE OF ENGINEERING AND MANAGEMENT AMRAVATI

Relevant Coursework

- Database Management System
- Object Oriented Programming
- Data Structures
- Algorithm Analysis
- Operating System
- Computer Networks

Key Skills

- **Programming Languages:** C++, Java & Collection Framework
- **Database Management:** MySQL, MongoDB
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Development Frameworks:** JDBC, Hibernate, SpringBoot
- **Software Engineering:** SDLC, Agile methodologies

Languages

· **English** -Proficient
· **Hindi** - Expert
· **Marathi** - Native

Personal Project

Workflow Management System September 2024

Developed a robust Workflow Management System (OWMS) utilizing HTML, CSS, JavaScript, Bootstrap, React for the front-end, and Python, MySQL, Flask, Node.js for the back-end. The system, implemented using Visual Studio, Anaconda, SQLYog, automates, manages, and optimizes business workflows, enhancing efficiency and productivity. Customizable for diverse industries, OWMS streamlines complex, multi-step processes, improving operational efficiency, reducing errors, and elevating overall process quality.

Auditorium Booking Management System April 2024

Designed and developed an Auditorium Booking Management System using HTML, CSS, and JavaScript for the frontend, while utilizing Node.js for the backend. Implemented a robust MySQL database for efficient data storage and retrieval. This project showcases my proficiency in full-stack development, demonstrating skills in frontend design, backend logic, and database management to create a seamless and user-friendly system for

Internship

Data Science with Python Intern | ImagineScript Solution Private Limited June, July-24

Throughout my internship, I actively engaged in comprehensive learning and practical implementation of various aspects of Data Science and Python programming. I successfully executed diverse data analysis tasks within the Supermarket Sales dataset, demonstrating proficiency in Python programming. This hands-on experience allowed me to apply theoretical knowledge to real-world scenarios, enhancing my skills in data analysis and reinforcing my understanding of key data science concepts.

Extracurricular Activities

Smart India Hackathon

Volunteered for a 36-hour coding contest, contributing to the seamless execution of the event. Demonstrated strong organizational and teamwork skills by assisting with logistics, participant coordination, and event support. This experience underscored my commitment to fostering collaborative coding environments and showcased my ability to thrive in fast-paced, time-sensitive situations.

Member of IEEE Committee

Contributed to the IEEE committee focused on publishing papers highlighting innovative technologies, programs, and their benefits. Played a pivotal role in disseminating valuable insights by meticulously uploading papers onto the IEEE website. This involvement allowed me to actively participate in shaping recommendations for Member and Geographic Activities, showcasing my commitment to advancing technological discourse within a globally recognized professional community.
