- Personal Portfolio: https://nipun-10.github.io/portfolio-website/

AWS Cloud Intern

AWS-certified cloud engineer with hands-on expertise in designing and deploying scalable cloud infrastructure on AWS. Currently gaining production-level experience as a Cloud Intern at Velocis Systems, working on EC2 provisioning, VPC networking, IAM configuration, CloudWatch monitoring, and L1/L2 ticket handling. Active learner completed AWS Skill Builder certifications in cloud computing, networking, compute services, and content delivery. Seeking entry-level Cloud Support Engineer, Junior DevOps, or Cloud Operations role to leverage AWS expertise and grow professionally in cloud infrastructure and operations.

Experience

November 2025 – Present: Company – Velocis Systems Pvt. Ltd.

(<0.5Yrs) **Post –** AWS Cloud Intern

Responsibilities – - AWS Infrastructure Management: Provisioning and configuring EC2 instances, managing security groups, VPC networking, and IAM roles for production environments with adherence to security best practices.

- **Monitoring & Observability:** Setting up CloudWatch metrics, alarms, logs, and dashboards to monitor resources health, performance, and utilization.
- **Ticket Handling & Support:** Managing L1 support tickets (incident response, troubleshooting, configuration changes, instance restarts, new user provisioning) with documented SOPs and escalation workflows.
- **Network Configuration:** Designing and configuring VPC architectures, subnet routing, NAT gateways, and VPC peering to enable secure inter-service communication.
- **Documentation:** Creating Standard Operating Procedures (SOPs), and runbooks for new Incidents or change activities.

Education

Bachelor of Technology (B.Tech), Computer Science Engineering

Vellore Institute of Technology (VIT) — Completed, August 2025
Vellore, Tamil Nadu — Marks: 7.72 CGPA

Intermediate, Science

Dewan Public School International — Completed, July 2021
CBSE — Marks: 87.4%
Meerut, Uttar Pradesh

High School

Dewan Public School International — Completed, July 2019
CBSE — Marks: 91.4%
Meerut, Uttar Pradesh

Trainings & Certifications

- **Introduction to Amazon CloudFront** | AWS Skill Builder | Dec 2025
  CloudFront distribution setup, S3 origin configuration, caching behavior, HTTPS/SSL, and global content delivery
- **AWS Compute Services Overview** | AWS Skill Builder | Nov 2025
  EC2 instances, Lambda, Auto Scaling, compute optimization, and architectural patterns
- **Getting Started with Networking – Training Badge** | AWS Educate | Nov 2025
  Amazon VPC, networking & security fundamentals, subnetting, and security group configuration
- **AWS SimuLearn: Cloud Computing Essentials** | AWS Skill Builder | Nov 2025
  Hands-on training in S3 operations, basic networking, foundational cloud concepts, and real-world cloud scenarios
- **AWS Certified Cloud Practitioner** | Amazon Web Services (AWS) | Feb 2024 – Feb 2027
  Credential ID: 195ac077059a4df7a7cb9ccba4880940
- **MERN Full Stack Internship Program** | Ethnus | Dec 2023
  Completed hands-on training in React, Node.js, Express.js, MongoDB, and full-stack application development

Projects Undertaken

- **Full-Scale Application Deployment Using AWS Services** (in 2025-26)
  Designed and deployed a highly available and fault-tolerant web application on AWS using a production-grade architecture. Configured an Application Load Balancer (ALB) to distribute traffic across EC2 instances running in an Auto Scaling Group (ASG) spread across multiple Availability Zones. Hosted static assets in Amazon S3, integrated with CloudFront CDN for low-latency global delivery, and managed DNS via Amazon Route 53. Implemented IAM roles and security best practices to ensure controlled access and secure operations.
- **Automated CI/CD Pipeline Using GitHub Actions (Node.js → EC2)** (in 2025-26)
  Implemented a fully automated CI/CD pipeline using GitHub Actions to build, test, and deploy a Node.js application onto an EC2 instance. Automated the deployment process using SSH workflows and ensured zero-downtime updates with proper service restarts and health checks.
- **Serverless CRUD API Using AWS Lambda, API Gateway & DynamoDB** (in 2025-26)
  Built and deployed a serverless REST API using AWS Lambda functions integrated with API Gateway for routing and request validation. Designed a DynamoDB table for scalable NoSQL storage and implemented CRUD operations with IAM role-based access restrictions. Configured CloudWatch for centralized logging, metrics, and performance monitoring.
- **MERN Application Deployment on AWS (Frontend + Backend)** (in 2025-26)
  Developed a full-stack MERN web application and deployed it using modern AWS hosting best practices. Hosted the frontend on Amazon S3, accelerated by CloudFront with SSL certificates for secure HTTPS delivery. Deployed the backend on EC2, configured reverse proxy (Nginx), and connected it to MongoDB Atlas or a hosted database.
- **Secure & Scalable 3-Tier Architecture with VPC Isolation & Peering.** (in 2025-26)
  Designed and deployed a secure 3-tier architecture consisting of Web, Application, and Database tiers isolated across public and private subnets. Implemented VPC Peering for cross-VPC secure communication and configured routing tables for controlled data flow. Added security groups, NACLs, and IAM policies to enforce least-privilege access.

Strengths & Skill Set

- **Soft Skills:**
  - Punctual, take responsibility and manage tasks effectively.
  - Leadership, and Time Management
  - Eager to learn new skill set and technologies.

- **AWS Services:** IAM, EC2, S3, VPC, EBS, AMI, Route53, SNS, Cloud Watch, Elastic IP, Auto Scaling, Lambda Functions, Internet Gateway (IGW), NATGW, NACL, RDS.
- **Programming:** C++, SQL
- **CSE core skills:** Operating System, Database management System, Data Structure and Algorithm (DSA)
- **Computer Tools:** MS office- Word, PPT, Excel, Outlook, Notepad etc.
- **Other Tools:** Putty, Termius, AWS CLI, VsCode.
- **OS:** Windows, Linux Distros- Amazon Linux2, Ubuntu.

Personal Details

Languages: English, Hindi
Birthday: September 25th, 2003
Interests: Cloud computing, open-source technologies, competitive programming

Marital Status: Un-Married
Nationality: India
Gender: Male

Current Address: Noida, Uttar Pradesh
