- Client Communication & Issue Escalation Handling

PROFESSIONAL EXPERIENCE

Application Support Analyst
Rosmerta Technology Pvt. Ltd. – Guru gram Sec-44, Haryana
Feb 2022 – July 2024 (2.6 Years)
Environment: C#, MS SQL Server, Visual Studio, Excel, Power BI, Application Logs, Eather Service, Windows, Production Support

Application Support Analyst
Codelover Technology. Pvt. Ltd.
Aug 2024 – June 2025 (10 Mouth)
Environment: C#, MS SQL Server, Visual Studio, Excel, Power BI, Application Logs, Windows, Application Support, LAN Connection, Desktop support.

Responsibilities:

- Provided **application support and technical support** for the **OLA Bikes** and **Okinawa Electric Vehicles registration systems, DL and RC Printing software** used by dealers and internal operations teams.
- Supported the **vehicle registration workflow**, including document validation, user onboarding, and integration with RTO APIs.
- Investigated and resolved issues related to **vehicle registration failures**, **data mismatches**, and **incomplete dealer submissions** using SQL and log analysis.
- Interacted with dealers and internal stakeholders to resolve queries related to vehicle onboarding and registration status.
- Worked closely with the development team to debug backend issues in **C#/.NET applications** by analyzing custom logs and user activity traces.
- Wrote and optimized **SQL queries** to validate registration status, update incorrect records, and generate exception reports.
- Created **Excel-based trackers** and **Power BI dashboards** to monitor daily registration trends, dealer performance, and error patterns.
- Coordinated with the RTO team and external vendors to troubleshoot API integration issues and ensure successful syncs.
- Documented SOPs and known issue resolutions to streamline onboarding and reduce ticket inflow.
- Analyzed and resolved application errors, job failures, and performance issues using SQL queries and log files.
- Handled incident tickets via Eather with a focus on SLA adherence and quick resolution.
- Performed data corrections and ad-hoc data requests via SQL after validating with business stakeholders.
- Escalated unresolved issues to development teams and followed up until closure.
- Participated in deployments, smoke testing, and UAT coordination during release cycles.
- Created SOPs, Knowledge Articles, and participated in process improvements to reduce ticket volumes.

EDUCATION

BCA
Sikkim Manipal University – 2013

PERSONAL ATTRIBUTES

- Quick Learner | Detail-Oriented | Strong Communicator | Team Player | Analytical Thinking.
