Sudhanshu shukla

Aspiring Network Engineer | Operations Professional | CCNA & CCNP
+91-8354814009 | sobhitshukla1234@gmail.com
Linkedin | Lucknow, Uttar Pradesh | Open to relocate PAN-India

Summary

Aspiring Network Engineer with B.Tech (IT) degree (2024) and 1 year of IT operations experience. Strong hands-on knowledge of networking fundamentals, including routing (OSPF, EIGRP), switching (VLAN, STP), subnetting, TCP/IP, DHCP, DNS, NAT, and network troubleshooting. Practical exposure to Cisco Packet Tracer, GNS3, Wireshark, and Linux. Completed CCNA level coursework. Seeking a Network Engineer role to apply technical skills in designing, implementing, and maintaining secure, scalable networks.

Technical Skills

Networking:

- Routing Protocols: OSPF, EIGRP, RIP, Static Routing.
- Switching & LAN Technologies: VLAN, STP, Trunking, Port Configuration.
- Network Protocols & Services: TCP/IP, DHCP, DNS, NAT.
- Network Troubleshooting & Diagnostics.
- Networking Tools: Cisco IOS, Cisco Packet Tracer, GNS3, Wireshark, Nmap, SolarWinds (Lab/Practice).
- Network Security Fundamentals: Firewall Basics, ACL Configuration (Lab Knowledge).

Professional Experience

Operations Executive

Maaricha, Lucknow
August 2024 – Present

- Managed operations including shipment tracking, compliance documentation, and logistics coordination.
- Used ERP/logistics systems to manage invoices, customs clearance, and freight schedules.
- Built discipline in documentation, reporting, and system-based task execution.
- Developed accuracy in record-keeping and troubleshooting logistical issues under pressure.
- Communicated with vendors, freight forwarders, and government agents to ensure timely delivery.

Enterprise Network Design & Simulation

Self-Initiated Project| Cisco Packet Tracer | Feb–Aug 2025

- Designed a full enterprise network simulation with head office, branch office, and remote users.
- Implemented OSPF routing, VLAN segmentation, and ACL-based access control.
- Configured NAT, DHCP, DNS and verified communication using ICMP and troubleshooting tools.
- Applied subnetting, IP addressing schemes, switch/router CLI configuration, and device simulation.
- Created documentation: IP Plan, Network Diagram, Configuration Scripts.
- Tools Used: Cisco Packet Tracer, CLI (Switch/Router Commands), Wireshark
- Goal: Build scalable, secure enterprise network architecture for inter-branch communication and access control.

Education

Babu Banarasi Das Institute of Technology and Management

B.Tech(IT) • Lucknow, Uttar Pradesh **2024**

OPS Intermediate College

Intermediate • Ayodhya, Uttar Pradesh **2019**

Certifications & Training

- CCNA – (Routing, Switching, Subnetting, Troubleshooting)
- CCNP Core – Self-prepared (OSPF, ACLs, STP, Network Security Concepts)
- Coursera – Google Data Analytics Certificate
- TechSoft India – Core & Advanced Java Training
- NPTEL – Industry 4.0 and IoT, Cloud Computing

Technical Achievements

- HackerRank: Python (4 stars), Java (3 stars)

Academic Projects

- Developed Python-based ML project for Paddy Leaf Disease Detection (92% accuracy)
