Software Engineer with 1 Years of IT Experience

CAREER SUMMARY

Web Developer intern with experience at the Centre for Railway Information Systems, New Delhi (Jan 2023 – Jun 2025). Skilled in Python, Django, HTML, CSS, JavaScript, Bootstrap, PostgreSQL, and AJAX. Experienced in Incident Management using JIRA and Confluence, with hands-on expertise in monitoring critical application metrics through Zabbix to ensure high availability and performance.

PROFESSIONAL EXPERIENCE

- **Web developer** Centre for railway information system, New delhi | January 2023 - June 2025
- I have developed a strong background in many aspects of information technology. My primary skills include Python, Django, HTML, CSS, Javascript, Bootstrap, PostgreSQL and Ajax.
- Have good experience on **JIRA** work log for any assigned user story/defect.
- Work experience on **INCIDENT MANAGEMENT, Jira, Confluence.**
- Experience in **Zabbix alert** to monitor critical application metrics, ensuring high availability and performance.

TECHNICAL SKILLS

- AWS
- EC2
- HTML
- Django
- CSS
- Javascript
- Bootstrap
- PostgreSQL
- Zabbix
- JIRA

PROJECT EXPERIENCE

Project: #2

Client: Wheelseye

Role Description: Support engineer

Responsibilities:

- Handled **Incident Management** using JIRA and documented resolutions in **Confluence**.
- Monitored critical application metrics with **Zabbix** to ensure high availability and performance.
- Launched and managed EC2 instances on **AWS** as required for production.
- Increased and updated EBS volumes when clients raised tickets and assigned tasks to our team.
- Investigated and resolved **high CPU and memory** utilization issues on servers.
- Diagnosed and fixed **disk-related** problems, including increasing disk size on AWS.
- Troubleshot **Tomcat** and related application issues in production.
- Provided on-call and production support to application teams whenever required.

Project: #1

Client: Rail Kaushal Vikas Yojna.

Role Description: Web Developer intern.

Responsibilities:

- I implemented interactive UI behaviours and client-side validation with **JavaScript**.
- I developed the website front-end building responsive page using **HTML, CSS, Javascript, and Bootstrap**
- I built the **back-end** using **Python** and **Django**, views, and data models.
- I integrated the front-end with the back-end via **Django templates** and REST endpoints.
- I performed testing and debugging to ensure functionality and cross-browser compatibility.

COMPANY EXPERIENCE

- **Support engineer** at Wheelseye technology from August 2024 – April 2024
- Trainee at **Rail Kaushal Vikas Yojna** from Jan 2023 – Jun 2023

EDUCATION QUALIFICATION

- MCA from Patna womens college
- BCA from R.N college
